Signatures

All parties' signature must be in one of the following acceptable formats:

- Original paper petition signed in ink;
- Scanned copy of original, ink-signed paper petition; or
- Digital signature

District proponents will collect all original (hard copy) and electronic petition forms from property owners for submission to the Glendale Planning Division. The proponents will provide property owners with information regarding how to submit paper or electronic versions of the signed petition forms.

Scanned Signatures

The property owner may sign, in ink, a printed petition form, scan the form as a PDF document, and submit it electronically (e.g. via email) as directed by the survey proponents. This signature is only legal if the property owner certifies that the original, signed document is available for inspection and copying at the request of the City, a court, or any other party. The signature is subject to the declaration on the petition form that, under penalty of perjury under the laws of the state of California, the information submitted is true and correct.

Digital Signatures

The property owner may add a digital signature to an electronic copy of the petition (using a proprietary signature tool such as DocuSign, Adobe Sign, etc.) subject to the declaration on the petition form that, under penalty of perjury under the laws of the state of California, the information submitted is true and correct.
